The Ace of Diamonds: Assessments and Care Management

Finding the right caregiver gives many families the peace of mind they need to know that their love one is being well-taken care of. *Ace Personnel* has been successfully providing this service for clients for over thirty years.

Caring for a senior is an ongoing process and needs can change throughout the aging process. Families will often have questions and concerns about health and care issues that a caregiver might not be able to answer. So *Ace Personnel* and *Diamond Geriatrics* has teamed up to provide the additional help you may need. *Diamond Geriatrics* provides professional planning, case management and monitoring, assistance with seniors' housing, counselling, and seniors' advocacy - all special services that anyone wishing to provide the best care possible for a loved one may need help with at one point or another.

Eldercare planning: *Diamond Geriatrics* can work with you to develop your eldercare roadmap, preparing you for whatever may be coming in the future as you're loved one ages. This can include helping you to plan for increasing dementia needs, explaining the services you may need, and the best way to access the long-term care system. Your roadmap will give you an idea of what may be coming up and give you the confidence and support to be able to deal with it effectively.

Care/case management: If you live out of town or find that you are pulled in competing directions from work or spouse and children, *Diamond Geriatrics* can oversee, monitor and co-ordinate the care that your caregiver is providing and co-ordinate and liaise with any and all other services that might be needed. In essence, we act as your "professional family" to be there as a caring monitor and problem solver, just like you would be.

Seniors housing: If there comes a time when you are considering seniors housing, the professionals at *Diamond Geriatrics* are experts in that field. We can help you to find the best place for your loved one, and coordinate the move with and for you. Afterwards, we can stay involved to monitor the care that the residence is providing.

Counselling: Case managers from *Diamond Geriatrics* are experienced counsellors. We often meet with families to plan, or assist with addressing any differences. We can also help with grief, loss, and working through some of the other feelings that may arise and cause stress and impact upon decisions you or your loved one need to make.

Advocacy: These days, the medical system is often overwhelmed by the number of people trying to access its somewhat limited resources. It can help to work with people who really understand doctors, hospitals, or the long-term system. *Diamond Geriatrics* can act as your advocate or your coach to get through these times.

What does it cost? Through the partnership between *Diamond Geriatrics* and *Ace Personnel* *Ace Personnel* clients can receive a complete assessment and planning interview from *Diamond Geriatrics* for \$195.00. This assessment last two hours, takes place in the client's location. *Ace Personnel* clients also receive a discounted hourly price for any ongoing *Diamond Geriatrics* services.
